#### **Education**

#### Ph.D. Candidate in Electrical and Computer Engineering

2019- Present

University of Illinois at Urbana-Champaign (UIUC) GPA:4.0/4

Illinois, USA

Advisor: Professor Minh N. Do

**B.Sc.** in Electrical Engineering

2015 - 2019

University of Electronic Science and Technology of China (UESTC) GPA:3.9/4.0

Chengdu, China

### **Research Interests**

Machine learning and computer vision, especially transfer learning and AutoML.

### **Programming Skills**

• Pytorch, Python, Matlab, Bash, Vim, Git.

### **Research Experience**

#### University of Illinois at Urbana-Champaign (UIUC)

Aug 2019 - Present

Hardware-aware Neural Architecture Search

Illinois, USA

- Developed differentiable models predicting end-to-end hardware performance of neural network architectures.
- Incorporated hardware feedback into end-to-end Differentiable Neural Architecture Search (DNAS).
- Conducted experiments on CIFAR and ImageNet datasets on multiple hardware platforms (Edge GPUs, Edge TPUs, Mobile CPUs, and customized accelerators).
- ullet Demonstrated hardware performance improvement of  $1.4\times$  on customized accelerators and  $1.6\times$  on existing hardware processors.

#### Multi-source transfer learning

- Formulated multi-source transfer learning as a bi-level optimization problem.
- Learned task weights for each source task during training using implicit differentiation.
- Conducted experiments on multiple tasks including classification and scene understanding.
- Demonstrated improved performance on CIFAR10, CelebA and Cityscapes datasets.

#### University of California, Los Angeles (UCLA)

08/2018 - 11/2018

Semantic segmentation for medical images

Los Angeles, USA

- Developed tools to efficiently pre-process raw skull MRI images.
- Developed models to segment brain parts, especially hippocampus from raw skull images.

# **Work Experience**

#### **International Business Machine Inc. (IBM)**

05/2020 - 08/2020

Research Intern, Optimization of communication libraries for IBM clouds

Yorktown Heights, USA

- Developed tools to efficiently benchmark and visualize communication performance.
- Optimized parameters for message passing interface on IBM clouds.

### **Teaching Experience**

#### University of Illinois at Urbana-Champaign

2021 Fall

Teaching Assistant, Electrical and Computer Engineering Department

Illinois, USA

• ECE310: Digital Signal Processing

### Other Experience

#### University of California, Los Angeles (UCLA)

2018 Summer

Full scholarship, Cross–disciplinary Scholar in Science and Technology (CSST)

Los Angeles, UCLA

**Israel Institute of Technology (Technion)** 

2017 Summer

Full scholarship, Summer School of Engineering

Haifa, Israel

#### Relevant Coursework

- ECE 544: Pattern Recognition
- ECE 549: Computer Vision
- ECE 490: Introduction to optimization
- ECE 534: Random Processes
- ECE 551: Digital Signal Processing II

#### **Publications**

#### Conference papers

- 1. **Qian Jiang**, Raymond A. Yeh, and Minh N. Do. Multi-source transfer learning by learning to weight source tasks. Under submission, 2021.
- 2. **Qian Jiang\***, Xiaofan Zhang\*, Deming Chen, Minh N. Do, and Raymond A. Yeh. EH-DNAS: End-to-end hardware-aware differentiable neural architecture search. Under submission, 2021. [Paper] [Code]

# Scholarships and Awards

- C3SR (Illinois- IBM Center of Cognitive Computing Systems Research) Fellowship, 2019-2021.
- Outstanding Award, National College Student Research Innovation, China, 2018.
- National Scholarship, China, 2018.
- Tanglixin Scholarship, China, 2017.
- First Prize on Internet and Tech Innovation Competition, China, 2017.
