Education

Ph.D. Candidate in Electrical and Computer Engineering	**2019- Present**
University of Illinois at Urbana-Champaign (*UIUC*) *GPA:4.0/4.0*	*Illinois, USA*
Advisor: Professor Minh N. Do	
B.Sc. in Electrical Engineering	**2015 - 2019**
University of Electronic Science and Technology of China (*UESTC*) *GPA:3.9/4.0*	*Chengdu, China*

Research Interests

- Machine learning and computer vision, especially transfer learning and AutoML.

Programming Skills

- Pytorch, Python, Matlab, Bash, Vim, Git.

Research Experience

University of Illinois at Urbana-Champaign (**UIUC**)   **Aug 2019 - Present**
Hardware-aware Neural Architecture Search   *Illinois, USA*

- Developed differentiable models predicting end-to-end hardware performance of neural network architectures.
- Incorporated hardware feedback into end-to-end Differentiable Neural Architecture Search (DNAS).
- Conducted experiments on CIFAR and ImageNet datasets on multiple hardware platforms (Edge GPUs, Edge TPUs, Mobile CPUs, and customized accelerators).
- Demonstrated hardware performance improvement of $1.4\times$ on customized accelerators and $1.6\times$ on existing hardware processors.

Multi-source transfer learning

- Formulated multi-source transfer learning as a bi-level optimization problem.
- Learned task weights for each source task during training using implicit differentiation.
- Conducted experiments on multiple tasks including classification and scene understanding.
- Demonstrated improved performance on FashionMNIST, CelebA and Cityscapes datasets.

University of California, Los Angeles (**UCLA**)   08/2018 - 11/2018
Semantic segmentation for medical images   *Los Angeles, USA*

- Developed tools to efficiently pre-process raw skull MRI images.
- Developed models to segment brain parts, especially hippocampus from raw skull images.

Work Experience

International Business Machine Inc. (IBM)   05/2020 - 08/2020
Research Intern, Optimization of communication libraries for IBM clouds   *Yorktown Heights, USA*

- Developed tools to efficiently benchmark and visualize communication performance.
- Optimized parameters for message passing interface on IBM clouds.

Teaching Experience

University of Illinois at Urbana-Champaign **2021 Fall**
Teaching Assistant, Electrical and Computer Engineering Department *Illinois, USA*
- ECE310: Digital Signal Processing

Other Experience

University of California, Los Angeles (UCLA) **2018 Summer**
Full scholarship, Cross–disciplinary Scholar in Science and Technology (CSST) *Los Angeles, UCLA*

Israel Institute of Technology (Technion) **2017 Summer**
Full scholarship, Summer School of Engineering *Haifa, Israel*

Relevant Coursework

- ECE 544: Pattern Recognition
- ECE 549: Computer Vision
- ECE 490: Introduction to optimization
- ECE 534: Random Processes
- ECE 551: Digital Signal Processing II

Publications

Conference papers

1. **Qian Jiang**, Raymond A. Yeh, and Minh N. Do. Multi-source transfer learning by learning to weight source tasks. Under submission, 2021.

2. **Qian Jiang***, Xiaofan Zhang*, Deming Chen, Minh N. Do, and Raymond A. Yeh. EH-DNAS: End-to-end hardware-aware differentiable neural architecture search. Under submission, 2021. [Paper] [Code]

Scholarships and Awards

- C3SR (Illinois- IBM Center of Cognitive Computing Systems Research) Fellowship, 2019-2021.
- Outstanding Award, National College Student Research Innovation, China, 2018.
- National Scholarship, China, 2018.
- Tanglixin Scholarship, China, 2017.
- First Prize on Internet and Tech Innovation Competition, China, 2017.
